THE HOSPITAL FOR THE INSANE,

Ponoka, Alta., January 31st, 1916.

THE HON. A. J. MCLEAN,
Provincial Secretary,
Edmonton, Alta.

SIR,—I have the honour to submit to you the report for 1915, being the fifth annual report of the Hospital for Insane, Ponoka, along with the usual statistical tables.

On the first day of January, 1915, there were in residence 263 males and 117 females, a total of 380. At the close of the year there were 297 males and 148 females, a total of 445 patients resident in the Hospital. This gives an increase of 34 males and 31 females, a total of 65 for the year.

The admissions were 141 males and 66 females, a total of 207. The number of patients discharged was 113, as follows:

	Males	Females	Total
Recovered.....	73	28	101
Improved.....	7	2	9
Not improved.....	3	..	3
Total.....	83	30	113

The above discharges include, 8 deportations, all males:

	Males	Females	Total
Sweden.....	3	..	3
United States.....	5	..	5
Total.....	8	..	8

During the year, 82 patients, 55 males and 27 females, were sent out on probation.

One man who was working outside eloped.

The deaths numbered 28, viz: 23 males and 5 females,

The recovery-rate, based on the total admissions, is in the case of the males 51.77 per cent, and in that of the females 42.42 per cent. In the case of the combined sexes, therefore, the recovery-rate is 48.79 per cent.

The death rate, estimated on the average number resident, is for the males 7.85 per cent and for females 3.69 per cent or for both sexes 6.54 per cent. Based on the total number under treatment, these rates are respectively males 5.69 per cent, females 2.73 per cent, or for both sexes 4.77 per cent.

The general health of both patients and Staff has been excellent and there has been practically freedom from infectious disease. With our increasing population it would be as well to consider the advisability of building a small Isolation Hospital in case of any outbreak of infectious disease.

The New Building was opened for the reception of female patients on August 19th. It is constructed on the plan of a large Day-room and Dormitory on each floor, with 12 Single rooms in addition: each flat can accommodate 65 patients.

It has made a great difference to both patients and nurses to have the cases classified in separate wards and to have plenty of floor space. The patients look much better and are less noisy and disturbed and are happier and more easily managed. It has lightened the nurses work and it is the exception to have any excitement in the wards.

The bath-rooms are certainly fit for any first-class hotel and are exceedingly convenient.

The Dining-room and Recreation-room in the basement are bright and airy; the Recreation-room, used for dances and concerts, looks very pretty when lit up.

The wards vacated by the female patients in the Main Building are being used by the males, so that we should have ample accommodation for another year for both sexes.

There is at present under contemplation a New Male Block to be started this year: the plans, in preparation, have in view the accommodation for 300 more males and should prove to be most commodious, convenient and comfortable.

The Carpenter, with the help of a patient who is artistic, has painted and decorated quite a large part of the Main Building, viz: the dining hall, all the main corridors and all the nurses' and attendants' quarters.

The Public Works Department painted the kitchen and white-washed part of the basement, laundry and bakeshop.

The following have been constructed or installed by the Public Works:-

A stable to accommodate 16 horses.

A slaughtered-house.

A water softening plant (Lassen and Hjort Automatic Water Softener)

A covered reservoir to hold one week's supply of softened water.

Two electric pumps.

Two Babcock and Wilcox steam boilers.

To meet the increasing demand for water, arrangements are being made to drill a third well at an early date.

We are still continuing to lay out the grounds around the building. This year more has been done than formerly and everyone who saw it remarked on the pleasing appearance of the improvements.

The female patients continue to do useful work in the sewing-room and the laundry. Apart from the kitchen, the male patients are employed for the most part outside, as milking, gardening, bushcutting and farm work.

The following are the improvements done this year:-

Seven acres of land cleared of brush,

Eighty-five acres broken,

Four rods of open drain dug,

Five hundred rods of fence posts put up,

A root-house 24x70 built,

A bin in the barn constructed.

The yearly average net cost per capita is \$ ~~142.88~~ 148.87

The daily average net cost per capita is \$ ~~39~~ 41

In concluding, we desire to express our indebtedness to the various Departments for their support and assistance.

I have the honour to be, Sir,

Your obedient servant,

THOMAS DAWSON,

Medical Superintendent.

THE FARM

The crop this year was an average one and was harvested in good condition. The following is the yield per acre :

THE PROVINCIAL GAOL,
Lethbridge, January 30th, 1916.

THE HON. A. J. McLEAN,
Provincial Secretary,
Edmonton, Alta.

DEAR SIR,—I have the honour to submit to you my Fifth Annual Report of the Provincial Gaol, Lethbridge, for the year ending December 31st, 1915, along with the usual Statistical Tables, which I am sure you will find very interesting.

Our average prison population for the past twelve months has been 103'07, showing a great reduction over former years. Ever since the war broke out and the call for recruits has been so urgent, our numbers have steadily decreased.

Many men have enlisted who would otherwise have been lying around our chief centres of population and more readily become recruits for this institution. Then again men who have not enlisted have taken the positions left vacant by the men who have and thus kept employed and out of mischief—and gaol.

Our men have been remarkably healthy during the year, owing no doubt to the sanitary conditions prevailing here and the open air work that is carried on throughout the year.

Daily exercise in the open air and sunlight with plenty of good wholesome food and bright airy rooms and regular habits of life must produce good physical results.

We had one camp out grading and repairing roads all season and they did good work, as a result the roads throughout this surrounding district are a credit to the province.

The past year was the most profitable one we have had in our farming operations. Patriotically answering the call of our country for increased production, we broke another quarter section in the spring and seeded it to grain. We had an excellent crop on all our farm. Wheat, oats, potato and root crops gave splendid yields and materially reduced the per capita cost of running our institution.

We were not able to get as much land plowed last fall as we would have desired, owing to the pressure of other work.

Special mention might be made of the experiment we made with a coating of burnt coal slack on the main road leading to the city and the splendid results obtained. It was conceded to be the best piece of road in the country and should be extended right in to the city. We made a fill in the road to the east of the gaol by wheel-barrow labour, repairing a piece of road made necessary by the overflow of waste water from our fields last season. It gave us a good deal of work, but the results justify our efforts.

Our shade trees made remarkable growth during the year and are already giving good results as wind breaks.

Owing to the war and various other causes we have had many changes on our staff. It is becoming increasingly difficult to keep competent men on our staff at the present scale of wages and some encouragement by way of a regular stated scale of increases will have to be provided or competent men will not remain long in these positions and take the desired interest in their work.

Owing to the heavy Root crops we had to build two new Root

houses 16 ft. x 56 ft. in dimensions to store this magnificent crop. We need a new Poultry house in the worst way.

It was my privilege to attend the annual meeting of the American Prison Congress held in Oakland, California in October last and I desire to thank you for making this possible to me.

I visited the state prison at San Quinton in California and on my return trip visited the Oakalla Prison Farm at Burnaby near New Westminster in British Columbia.

In conclusion, I desire to thank you for your continued interest in this Institution and the many valuable suggestions you have given us in carrying on this important work.

I feel grateful to all the members of our staff here for their faithful services and to the staff of your department for prompt attention to all requests for help during the year.

I have the honour to be, Sir,

Your obedient servant,

J. H. RIVERS,

Warden
